Dear Mayor and Council Members,

Our association is opposed to the proposed new signage for the 'Little Darlings' establishment.

We have gone on record of being opposed to signage that may environmentally impact on a neighborhoods esthetics.

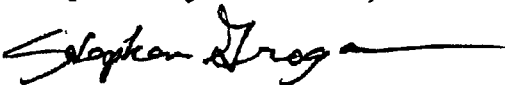

It is our understanding that this sign may be viewed by residents in the Scotch 80's neighborhood. We find this totally unacceptable.

We have seen no engineering that provides a 'cast off' impact to surrounding businesses and neighborhoods. This should be provided by the applicant before this matter is further considered.

Again, we ask this issue to be tabled or to be removed from consideration.

Thank you.

Respectfully submitted,

Stephen Grogan, President
